Department of Anaesthesiology and
Pain Clinic

Scientific Program

Introduction:

After the successful congress last year, we would like to invite you for a new congress in UZ Brussel, Saturday May 9, 2015.

We are planning a full day on ultrasound in both acute and chronic pain management. There will be a short plenary session but the emphasis is on hands-on training for physicians and nurses.

For physicians, workstations concerning upper and lower limb blocks are planned in the morning.

Later on in the day, chronic pain workstations will follow, in particular on truncal and paravertebral approaches.

For nurses we provide training in better understanding ultrasound machines and optimizing their assistance to physicians performing ultrasound-guided blocks.

Speakers/teachers are a group of well known Belgian and international colleagues.

Faculty

Bhutia J. - Belgium

Billet B. - Belgium

De Coster O. - Belgium

Lecoq J.P. - Belgium

Kinirons B. - Ireland

Lorenzana D. - Switzerland

Matic M. - Belgium

Ortigosa Solorzano E. - Spain

Poelaert J. - Belgium

Sermeus L. - Belgium

8:15 – 9:00 Registration & coffee

9:00 – 12:30

9:00 Welcome – Jan Poelaert

9:05 – 9:45 **Brian Kinirons**
(Galway University
Hospital. National
University of Ireland,
Galway
**Acute Pain Treatment:
Practical Aspects**

10:00 – 12:30 **Workshops**
Moderator: Milica Matic

- Workshops (rotation of attendees – with tutor):
 - ✓ Upper extremity
 - Interscalene block
 - Supraclavicular block
 - ✓ Lower extremity
 - Popliteal block
 - Femoral block

Dedicated workshop for nurses

Drinks will be provided continuously
