Welcome

After the successful congress last year, we would like to invite you for a new congress in UZ Brussel, Saturday April 30, 2016.

We are planning a full day on ultrasound in both acute and chronic pain management. There will be a short plenary session but the emphasis is on hands-on training.

Both acute and chronic pain treatment will be discussed and demonstrated throughout the day on live models and cadavers. Ultrasound blocks will be demonstrated in different settings by an international faculty.
